GUIDELINES FOR APPLYING FOR A GRANT TO AN ORGANISATION

The Isleworth & Hounslow Charity Ltd makes grants to other charities and organisations which offer help to people in poverty. The project that grant funding is sought for should be or contain one or more discrete things and/or activities. Grant is not available for year-on-year funding.

The charity or organisation must show evidence of the need of the project and show that the beneficiaries would be people in need, hardship or distress who are living with the London Borough of Hounslow.

Organisations must complete the Organisation Grant Application form. Grants to organisations rarely exceed £3,000.

If the Charity pledges to fund part of the total cost of a project, the funding may not be released until the Charity receives confirmation that the balance required has been raised.
